Leadership

Agile Leadership is the **practice of leading through service** to the team, by **focusing on understanding** and **addressing the needs and development** of team members to **enable the highest possible team performance**.

Leadership: Characteristics

Characteristics of good leadership

- Promoting self-awareness
- Listening
- Serving those on the team
- Helping people grow
- Coaching vs. controlling
- Promoting safety, respect, and trust;
- Promoting the energy and intelligence of others.

Leadership

Responsibilities of a good leader

- **Educate** stakeholders around why and how to be agile.
 - benefits of business value based on prioritization,
 - greater accountability and productivity of empowered teams,
 - improved quality from more frequent reviews, etc.
- **Support** the team through mentoring, encouragement, training, and career development.
- **Grow** team knowledge.
- **Celebrate team successes**
- **Appreciate**

Final Word (Motivation)

- Turn back and recall why were we here?
- Align yourself to your goals in life.
- Don't fear failures.
- Re-evaluate, Re-Calibrate yourself to move forward.
- You already are different and on a good path.
- Don't be here only for the grades but for a better future.
